

## EMERGENCY ARCHITECTS HAITI FUNDS APPEAL

As many as 150,000 people are feared dead after a devastating 7.3 magnitude earthquake struck the impoverished nation of Haiti. Buildings were destroyed and people were buried under tonnes of rubble after the massive quake struck close to the Haitian capital of Port-au-Prince at around 9am (AEST) 13 January 2010. Emergency Architects Australia has launched a fund for donations. These will be used for Emergency Architects future projects and the relief phase.
